Personal Profile

I am currently in my final year of multimedia at tuks and would like to pursue a career in software and web development. I have a keen interest in application devlopement for the web and mobile. I enjoy learning about new frameworks and languages that can be used to create better and more effective software. I enjoy back-end development as much as front-end and would like to gain experience in both disciplines.

Work Experience

MotorRadical

sql:

Education

University of Pretoria
BIS multimedia

The multimedia degree has offered me broad knowledge in relation to many different fields, focusing heavily on computer science aswell as visual design. I have developed skills in web development, software development aswell as animation in both 2d and 3d mediums.
